About the Artist

Rhonda Jones' inspiration comes from her imagination, travels, and life experiences. In her earlier life she was a scuba diver, world traveler, dive instructor, and purveyor of dive gear. She currently lives and creates art in Tennessee with a fantastically supportive boyfriend and a periodically indifferent orange cat. Mr. Cheddar, the orange cat, is impatiently waiting for the promised illustrated book about his adventures. He hopes this will be available in the near future.

Rhonda produces the memo pads, stationery pads, planners, note cards and magnets in her studio. All products made in the USA.

"I enjoy creating whimsical, quirky, illustrations and art. I believe what you focus on and what you think about is what you will find yourself surrounded with. So let us all focus on the good stuff."
-Rhonda Jones
